

MANAGEMENT REPORT

Management's Responsibility for Consolidated Financial Statements

The accompanying Consolidated Financial Statements of Encana Corporation (the "Company") are the responsibility of Management. The Consolidated Financial Statements have been prepared by Management in United States dollars in accordance with generally accepted accounting principles in the United States and include certain estimates that reflect Management's best judgments.

The Company's Board of Directors has approved the information contained in the Consolidated Financial Statements. The Board of Directors fulfills its responsibility regarding the financial statements mainly through its Audit Committee, which has a written mandate that complies with the current requirements of Canadian securities legislation and the United States Sarbanes-Oxley Act of 2002 and voluntarily complies, in principle, with the Audit Committee guidelines of the New York Stock Exchange. The Audit Committee meets at least on a quarterly basis.

Management's Assessment of Internal Control over Financial Reporting

Management is also responsible for establishing and maintaining adequate internal control over the Company's financial reporting. The internal control system was designed to provide reasonable assurance to the Company's Management regarding the preparation and presentation of the Consolidated Financial Statements.

Internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management has assessed the design and effectiveness of the Company's internal control over financial reporting as at December 31, 2013. In making its assessment, Management has used the Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission to evaluate the effectiveness of the Company's internal control over financial reporting. Based on our evaluation, Management has concluded that the Company's internal control over financial reporting was effectively designed and operating effectively as at that date.

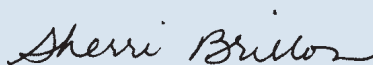

PricewaterhouseCoopers LLP, an independent firm of chartered accountants, was appointed by a vote of shareholders at the Company's last annual meeting to audit and provide independent opinions on both the Consolidated Financial Statements and the Company's internal control over financial reporting as at December 31, 2013, as stated in their Auditor's Report. PricewaterhouseCoopers LLP has provided such opinions.

AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Encana Corporation

We have completed an integrated audit of Encana Corporation's 2013 and 2012 Consolidated Financial Statements and its internal control over financial reporting as at December 31, 2013 and an audit of its 2011 Consolidated Financial Statements. Our opinions, based on our audits, are presented below.

Report on the Consolidated Financial Statements

We have audited the accompanying Consolidated Financial Statements of Encana Corporation, which comprise the Consolidated Balance Sheet as at December 31, 2013 and December 31, 2012 and the Consolidated Statements of Earnings, Comprehensive Income, Changes in Shareholders' Equity and Cash Flows for each of the three years in the period ended December 31, 2013, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America and for such internal control as management determines is necessary to enable the preparation of Consolidated Financial Statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audits. We conducted our audits as at December 31, 2013 and December 31, 2012 and for the years then ended in accordance with Canadian generally accepted auditing standards and the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial Statements are free from material misstatement. Canadian generally accepted auditing standards also require that we comply with ethical requirements.

An audit involves performing procedures to obtain audit evidence, on a test basis, about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting principles and policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Opinion

In our opinion, the Consolidated Financial Statements present fairly, in all material respects, the financial position of Encana Corporation and its subsidiaries as at December 31, 2013 and December 31, 2012 and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

We have also audited Encana Corporation and its subsidiaries' internal control over financial reporting as at December 31, 2013, based on criteria established in Internal Control - Integrated Framework (1992), issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

Management's Responsibility for Internal Control over Financial Reporting

Management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Assessment of Internal Control over Financial Reporting.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit. We conducted our audit of internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

An audit of internal control over financial reporting includes obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we consider necessary in the circumstances.

We believe that our audit provides a reasonable basis for our audit opinion on the company's internal control over financial reporting.

Definition of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, Encana Corporation and its subsidiaries maintained, in all material respects, effective internal control over financial reporting as at December 31, 2013, based on criteria established in Internal Control - Integrated Framework (1992) issued by COSO.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A) NATURE OF OPERATIONS

Encana Corporation and its subsidiaries ("Encana" or the "Company") are in the business of the exploration for, the development of, and the production and marketing of natural gas, oil and natural gas liquids ("NGLs"). The term liquids is used to represent Encana's oil, NGLs and condensate.

B) BASIS OF PRESENTATION

The Consolidated Financial Statements include the accounts of Encana and are presented in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

In these Consolidated Financial Statements, unless otherwise indicated, all dollar amounts are expressed in United States ("U.S.") dollars. Encana's financial results are consolidated in Canadian dollars; however, the Company has adopted the U.S. dollar as its reporting currency to facilitate a more direct comparison to other North American oil and gas companies. All references to US\$ or to \$ are to United States dollars and references to C\$ are to Canadian dollars.

C) PRINCIPLES OF CONSOLIDATION

The Consolidated Financial Statements include the accounts of Encana and entities in which it holds a controlling interest. All intercompany balances and transactions are eliminated on consolidation. For upstream joint interest operations where Encana retains an undivided interest in jointly owned property, the Company records its proportionate share of assets, liabilities, revenues and expenses. Investments in non-controlled entities over which Encana has the ability to exercise significant influence are accounted for using the equity method.

D) FOREIGN CURRENCY TRANSLATION

Monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the rates of exchange in effect at the period end date. Any gains or losses are recorded in the Consolidated Statement of Earnings. Foreign currency revenues and expenses are translated at the rates of exchange in effect at the time of the transaction.

For the accounts of foreign operations, assets and liabilities are translated at period end exchange rates, while revenues and expenses are translated using average rates over the period. Translation gains and losses relating to the foreign operations are included in accumulated other comprehensive income ("AOCI"). Recognition of Encana's accumulated translation gains and losses into net earnings occurs upon complete or substantially complete liquidation of the Company's investment in the foreign operation.

For financial statement presentation, assets and liabilities are translated into the reporting currency at period end exchange rates, while revenues and expenses are translated using average rates over the period. Gains and losses relating to the financial statement translation are included in AOCI.

E) USE OF ESTIMATES

The timely preparation of the Consolidated Financial Statements requires that Management make estimates and assumptions and use judgment regarding the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the period. Such estimates primarily relate to unsettled transactions and events as of the date of the Consolidated Financial Statements. Accordingly, actual results may differ from estimated amounts as future events occur.

Significant items subject to estimates and assumptions are:

- Estimates of proved reserves and related future cash flows used for depletion and ceiling test impairment calculations
- Estimated fair value of long-term assets used for impairment calculations
- Fair value of reporting units used for the assessment of goodwill
- Estimates of future taxable earnings used to assess the realizable value of deferred tax assets
- Fair value of asset retirement obligations and costs
- Fair value of derivative instruments
- Tax interpretations, regulations and legislation in the various jurisdictions in which the Company and its subsidiaries operate
- Accruals for long-term performance-based compensation arrangements, including whether or not the performance criteria will be met and measurement of the ultimate payout amount
- Recognized values of pension assets and obligations, as well as the pension costs charged to net earnings depend on certain actuarial and economic assumptions
- Accruals for legal claims, environmental risks and exposures

F) REVENUE RECOGNITION

Revenues associated with Encana's natural gas and liquids are recognized when production is sold to a purchaser at a fixed or determinable price, delivery has occurred, title has transferred and collectability of the revenue is probable. Realized gains and losses from the Company's financial derivatives related to natural gas and oil commodity prices are recognized in revenue when the contract is settled. Unrealized gains and losses related to these contracts are recognized in revenue based on the changes in fair value of the contracts at the end of the respective periods.

Market optimization revenues and purchased product expenses are recorded on a gross basis when Encana takes title to the product and has the risks and rewards of ownership. Purchases and sales of products that are entered into in contemplation of each other with the same counterparty are recorded on a net basis. Revenues associated with the services provided where Encana acts as agent are recorded as the services are provided.

G) PRODUCTION AND MINERAL TAXES

Costs paid by Encana to certain mineral and non-mineral interest owners based on production of natural gas and liquids are recognized when the product is produced.

H) TRANSPORTATION AND PROCESSING

Costs paid by Encana for the transportation and processing of natural gas and liquids are recognized when the product is delivered and the services provided.

I) OPERATING

Operating costs paid by Encana for oil and gas properties in which the Company has a working interest. Expenses are net of amounts capitalized in accordance with the full cost method of accounting.

J) EMPLOYEE BENEFIT PLANS

The Company sponsors defined contribution and defined benefit plans, providing pension and other post-employment benefits to its employees in Canada and the U.S. As of January 1, 2003, the defined benefit pension plan was closed to new entrants.

Pension expense for the defined contribution pension plan is recorded as the benefits are earned by the employees covered by the plans. Encana accrues for its obligations under its employee defined benefit plans, net of plan assets. The cost of defined benefit pensions and other post-employment benefits is actuarially determined using the projected benefit method based on length of service and reflects Management's best estimate of salary escalation, retirement ages of employees and expected future health care costs. The expected return on plan assets is based on historical and projected rates of return for assets in the investment plan portfolio. The actual return is based on the fair value of plan assets. The projected benefit obligation is discounted using the market interest rate on high-quality corporate debt instruments as at the measurement date.

Pension expense for the defined benefit pension plan includes the cost of pension benefits earned during the current year, the interest cost on pension obligations, the expected return on pension plan assets, the amortization of the net transitional obligation, the amortization of adjustments arising from pension plan amendments, the amortization of prior service costs, and the amortization of the excess of the net actuarial gain or loss over 10 percent of the greater of the benefit obligation and the fair value of plan assets. Amortization is done on a straight-line basis over a period covering the expected average remaining service lives of employees covered by the plans. Actuarial gains and losses related to the change in the over-funded or under-funded status of the defined benefit pension plan and other post-employment benefit plans are recognized in other comprehensive income.

K) INCOME TAXES

Encana follows the liability method of accounting for income taxes. Under this method, deferred income taxes are recorded for the effect of any temporary difference between the accounting and income tax basis of an asset or liability, using the enacted income tax rates and laws expected to apply when the assets are realized and liabilities are settled. Current income taxes are measured at the amount expected to be recoverable from or payable to the taxation authorities based on the income tax rates and laws enacted at the end of the reporting period. The effect of a change in the enacted tax rates or laws is recognized in net earnings in the period of enactment. Income taxes are recognized in net earnings except to the extent that they relate to items recognized directly in shareholders' equity, in which case the income taxes are recognized directly in shareholders' equity.

Deferred income tax assets are routinely assessed for realizability. If it is more likely than not that deferred tax assets will not be realized, a valuation allowance is recorded to reduce the deferred tax assets. Encana considers available positive and negative evidence when assessing the realizability of deferred tax assets including historic and expected future taxable earnings, available tax planning strategies and carry forward periods. The assumptions used in determining expected future taxable earnings are consistent with those used in the goodwill impairment assessment.

Encana recognizes the financial statement effects of a tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination by a taxing authority. A recognized tax position is initially and subsequently measured as the largest amount of tax benefit that is greater than 50 percent likely of being realized upon settlement with a taxing authority. Liabilities for unrecognized tax benefits that are not expected to be settled within the next 12 months are included in other liabilities and provisions.

L) EARNINGS PER SHARE AMOUNTS

Basic net earnings per common share is computed by dividing the net earnings by the weighted average number of common shares outstanding during the period. Diluted net earnings per common share amounts are calculated giving effect to the potential dilution that would occur if stock options were exercised or other contracts to issue common shares were exercised, fully vested, or converted to common shares. The treasury stock method is used to determine the dilutive effect of stock options and other dilutive instruments. The treasury stock method assumes that proceeds received from the exercise of in-the-money stock options and other dilutive instruments are used to repurchase common shares at the average market price.

M) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand and short-term investments, such as money market deposits or similar type instruments, with a maturity of three months or less when purchased. Outstanding disbursements issued in excess of applicable bank account balances are excluded from cash and cash equivalents and are recorded in accounts payable and accrued liabilities. Cash in reserve represents cash amounts segregated or held in escrow which are not available for general operating use.

N) PROPERTY, PLANT AND EQUIPMENT

UPSTREAM

Encana uses the full cost method of accounting for its acquisition, exploration and development activities. Under this method, all costs directly associated with the acquisition of, the exploration for, and the development of natural gas and liquids reserves are capitalized on a country-by-country cost centre basis. Capitalized costs exclude costs relating to production, general overhead or similar activities.

Under the full cost method of accounting, the carrying amount of Encana's natural gas and oil properties within each country cost centre is subject to a ceiling test performed quarterly. A ceiling test impairment is recognized in net earnings when the carrying amount of a country cost centre exceeds the country cost centre ceiling. The carrying amount of a cost centre includes capitalized costs of proved oil and gas properties, net of accumulated depletion and the related deferred income taxes.

The cost centre ceiling is the sum of the estimated after-tax future net cash flows from proved reserves, using the 12-month average trailing prices and unescalated future development and production costs, discounted at 10 percent, plus unproved property costs. The 12-month average trailing price is calculated as the average of the price on the first day of each month within the trailing 12-month period. Any excess of the carrying amount over the calculated ceiling amount is recognized as an impairment in net earnings.

Capitalized costs accumulated within each cost centre are depleted using the unit-of-production method based on proved reserves. Depletion is calculated using the capitalized costs, including estimated retirement costs, plus the undiscounted future expenditures to be incurred in developing proved reserves.

Costs associated with unproved properties are excluded from the depletion calculation until it is determined that proved reserves are attributable or impairment has occurred. Unproved properties are assessed separately for impairment on a quarterly basis. Costs that have been impaired are included in the costs subject to depletion within the full cost pool.

Proceeds from the divestiture of properties are normally deducted from the full cost pool without recognition of gain or loss unless the deduction significantly alters the relationship between capitalized costs and proved reserves in the cost centre, in which case a gain or loss is recognized in net earnings. Generally, a gain or loss on a divestiture is not recognized unless more than 25 percent of the Company's proved reserves quantities in a particular country are sold. For divestitures that result in the recognition of a gain or loss on the sale and constitute a business, goodwill is allocated to the divestiture.

MARKET OPTIMIZATION

Midstream facilities, including power generation facilities, are carried at cost and depreciated on a straight-line basis over the estimated service lives of the assets, which are 20 years.

CORPORATE

Costs associated with office furniture, fixtures, leasehold improvements, information technology and aircraft are carried at cost and depreciated on a straight-line basis over the estimated service lives of the assets, which range from three to 25 years. Costs associated with The Bow office building are carried at cost and depreciated on a straight-line basis over the 60-year estimated life of the building. Assets under construction are not subject to depreciation until put into use. Land is carried at cost.

O) CAPITALIZATION OF COSTS

Expenditures related to renewals or betterments that improve the productive capacity or extend the life of an asset are capitalized. Maintenance and repairs are expensed as incurred. Interest is capitalized during the construction phase of major development projects.

P) BUSINESS COMBINATIONS

Business combinations are accounted for using the acquisition method. The acquired identifiable net assets are measured at their fair value at the date of acquisition. Deferred taxes are recognized for any differences between the fair value of net assets acquired and their tax bases. Any excess of the purchase price over the fair value of the net assets acquired is recognized as goodwill. Any deficiency of the purchase price below the fair value of the net assets acquired is recorded as a gain in net earnings. Associated transaction costs are expensed when incurred.

Q) GOODWILL

Goodwill, which represents the excess of purchase price over fair value of net assets acquired, is assessed for impairment at least annually at December 31. Goodwill and all other assets and liabilities are allocated to reporting units, which are Encana's country cost centres. To assess impairment, the carrying amount of each reporting unit is determined and compared to the fair value of the reporting unit. If the carrying amount of the reporting unit is higher than its related fair value then goodwill is written down to the reporting unit's implied fair value of goodwill. The implied fair value of goodwill is determined by deducting the fair value of the reporting unit's assets and liabilities from the fair value of the reporting unit as if the reporting entity had been acquired in a business combination. Any excess of the carrying value of goodwill over the implied fair value of goodwill is recognized as an impairment and charged to net earnings. Subsequent measurement of goodwill is at cost less any accumulated impairments.

R) IMPAIRMENT OF LONG-TERM ASSETS

The carrying value of long-term assets, excluding goodwill and upstream assets included in property, plant and equipment, are assessed for impairment when indicators suggest that the carrying value of an asset or asset group may not be recoverable. If the carrying amount exceeds the sum of the undiscounted cash flows expected to result from the continued use and eventual disposition of the asset or asset group, an impairment is recognized for the excess of the carrying amount over its estimated fair value.

S) ASSET RETIREMENT OBLIGATION

Asset retirement obligations are those legal obligations where the Company will be required to retire tangible long-lived assets such as producing well sites, offshore production platforms and natural gas processing plants. The fair value of estimated asset retirement obligations is recognized in the Consolidated Balance Sheet when incurred and a reasonable estimate of fair value can be made. The asset retirement cost, equal to the initially estimated fair value of the asset retirement obligation, is capitalized as part of the cost of the related long-lived asset. Changes in the estimated obligation resulting from revisions to estimated timing or amount of future cash flows are recognized as a change in the asset retirement obligation and the related asset retirement cost.

Amortization of asset retirement costs is included in depreciation, depletion and amortization in the Consolidated Statement of Earnings. Increases in the asset retirement obligations resulting from the passage of time are recorded as accretion of asset retirement obligation in the Consolidated Statement of Earnings.

Actual expenditures incurred are charged against the accumulated asset retirement obligation.

T) STOCK-BASED COMPENSATION

Obligations for payments of cash or common shares under Encana's stock-based compensation plans are accrued over the vesting period, net of forfeitures, using fair values. Fair values are determined using observable share prices and/or pricing models such as the Black-Scholes-Merton option-pricing model. For equity-settled stock-based compensation plans, fair values are determined at the grant date and are recognized over the vesting period as compensation costs with a corresponding credit to shareholders' equity. For cash-settled stock-based compensation plans, fair values are determined at each reporting date and periodic changes are recognized as compensation costs, with a corresponding change to liabilities.

Obligations for payments for share units of Cenovus Energy Inc. ("Cenovus") held by Encana employees are accrued as compensation costs based on the fair value of the financial liability.

U) LEASES

Leases entered into for the use of an asset are classified as either capital or operating leases. Capital leases transfer to the Company substantially all of the risks and benefits incidental to ownership of the leased item. Capital leases are capitalized upon commencement of the lease term at the lower of the fair value of the leased asset or the present value of the minimum lease payments. Capitalized leased assets are amortized over the estimated useful life of the asset if the lease arrangement contains a bargain purchase option or ownership of the leased asset transfers at the end of the lease term. Otherwise, the leased assets are amortized over the lease term. Amortization of capitalized leased assets is included in depreciation, depletion and amortization in the Consolidated Statement of Earnings. All other leases are classified as operating leases and the payments are recognized on a straight-line basis over the lease term.

V) FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques include the market, income, and cost approach. The market approach uses information generated by market transactions involving identical or comparable assets or liabilities; the income approach converts estimated future amounts to a present value; and the cost approach is based on the amount that currently would be required to replace an asset.

Inputs used in determining fair value are characterized according to a hierarchy that prioritizes those inputs based on the degree to which they are observable. The three input levels of the fair value hierarchy are as follows:

- Level 1 – Inputs represent quoted prices in active markets for identical assets or liabilities, such as exchange-traded commodity derivatives.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as quoted market prices for similar assets or liabilities in active markets or other market corroborated inputs.
- Level 3 – Inputs that are not observable from objective sources, such as forward prices supported by little or no market activity or internally developed estimates of future cash flows used in a present value model.

In determining fair value, the Company utilizes the most observable inputs available. If a fair value measurement reflects inputs at multiple levels within the hierarchy, the fair value measurement is characterized based on the lowest level of input that is significant to the fair value measurement.

Recurring fair value measurements are performed for risk management assets and liabilities and for share units issued as part of the Split Transaction, as discussed in Notes 15 and 20. The carrying amount of cash and cash equivalents, accounts receivable and accounts payable reported on the Consolidated Balance Sheet approximates fair value. The fair value of long-term debt is disclosed in Note 12. Fair value information related to pension plan assets is included in Note 19.

Certain non-financial assets and liabilities are initially measured at fair value, such as asset retirement obligations and certain assets and liabilities acquired in business combinations or through non-monetary exchange transactions.

W) RISK MANAGEMENT ASSETS AND LIABILITIES

Risk management assets and liabilities are derivative financial instruments used by Encana to manage economic exposure to market risks relating to commodity prices, foreign currency exchange rates and interest rates. The use of these derivative instruments is governed under formal policies and is subject to limits established by the Board of Directors (“Board”). The Company’s policy is not to utilize derivative financial instruments for speculative purposes.

Derivative instruments that do not qualify for the normal purchases and sales exemption are measured at fair value with changes in fair value recognized in net earnings. The fair values recorded in the Consolidated Balance Sheet reflect netting the asset and liability positions where counterparty master netting arrangements contain provisions for net settlement. Realized gains or losses from financial derivatives related to natural gas and oil commodity prices are recognized in revenues as the contracts are settled. Realized gains or losses from financial derivatives related to power commodity prices are recognized in transportation and processing expense as the related power contracts are settled. Unrealized gains and losses are recognized in revenues and transportation and processing expense accordingly, at the end of each respective reporting period based on the changes in fair value of the contracts.

X) COMMITMENTS AND CONTINGENCIES

Liabilities for loss contingencies arising from claims, assessments, litigation, environmental and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. These accruals are adjusted as additional information becomes available or circumstances change.

Y) RECENT ACCOUNTING PRONOUNCEMENTS

CHANGES IN ACCOUNTING POLICIES AND PRACTICES

On January 1, 2013, Encana adopted the following accounting standards updates issued by the Financial Accounting Standards Board (“FASB”), which have not had a material impact on the Company’s Consolidated Financial Statements:

- Accounting Standards Update 2011-11, “Disclosures about Offsetting Assets and Liabilities”, and Accounting Standards Update 2013-01, “Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities”, require disclosure of both gross and net information about certain financial instruments eligible for offset in the balance sheet and certain financial instruments subject to master netting arrangements. The amendments have been applied retrospectively.
- Accounting Standards Update 2013-02, “Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income”, requires enhanced disclosures about amounts reclassified out of accumulated other comprehensive income. The amendments have been applied prospectively.

NEW STANDARDS ISSUED NOT YET ADOPTED

As of January 1, 2014, Encana will be required to adopt the following accounting standards updates issued by the FASB, which are not expected to have a material impact on the Company’s Consolidated Financial Statements:

- Accounting Standards Update 2013-04, “Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date”, clarifies guidance for the recognition, measurement and disclosure of liabilities resulting from joint and several liability arrangements. The amendments will be applied retrospectively.
- Accounting Standards Update 2013-05, “Parent’s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity”, clarifies the applicable guidance for certain transactions that result in the release of the cumulative translation adjustment into net earnings. The amendments will be applied prospectively.
- Accounting Standards Update 2013-11, “Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists”, clarifies that a liability related to an unrecognized tax benefit or portions thereof should be presented as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss or a tax credit carryforward, except under specific situations. The amendments will be applied prospectively.

2. SEGMENTED INFORMATION

Encana’s reportable segments are determined based on the Company’s operations and geographic locations as follows:

- **Canadian Division** includes the exploration for, development of, and production of natural gas, oil and NGLs and other related activities within the Canadian cost centre.
- **USA Division** includes the exploration for, development of, and production of natural gas, oil and NGLs and other related activities within the U.S. cost centre.
- **Market Optimization** is primarily responsible for the sale of the Company’s proprietary production. These results are included in the Canadian and USA Divisions. Market optimization activities include third party purchases and sales of product that provide operational flexibility for transportation commitments, product type, delivery points and customer diversification. These activities are reflected in the Market Optimization segment. Market Optimization sells substantially all of the Company’s upstream production to third party customers. Transactions between segments are based on market values and are eliminated on consolidation.

Corporate and Other mainly includes unrealized gains or losses recorded on derivative financial instruments. Once the instruments are settled, the realized gains and losses are recorded in the reporting segment to which the derivative instrument relates.

RESULTS OF OPERATIONS

INTERSEGMENT INFORMATION

For the years ended December 31	Market Optimization								
	Marketing Sales			Upstream Eliminations			Total

EXPORT SALES

Sales of natural gas and liquids produced or purchased in Canada delivered to customers outside of Canada were \$243 million (2012 – \$177 million; 2011 – \$266 million).

MAJOR CUSTOMERS

In connection with the marketing and sale of Encana's own and purchased natural gas and liquids for the year ended December 31, 2013, the Company had one customer which individually accounted for more than 10 percent of Encana's consolidated revenues, net of royalties. Sales to this customer, which has an investment grade credit rating, were approximately \$815 million (2012 – two customers with sales of approximately \$661 million and \$534 million; 2011 – one customer with sales of approximately \$831 million).

3. ACQUISITIONS AND DIVESTITURES

For the years ended December 31	2013	2012	2011
Acquisitions			
Canadian Division	\$ 28	\$ 139	\$ 410
USA Division	156	240	105
Total Acquisitions	184	379	515
Divestitures			
Canadian Division	(685)	(3,770)	(350)
USA Division	(18)	(271)	(1,730)
Corporate & Other	(2)	(2)	-
Total Divestitures	(705)	(4,043)	(2,080)
Net Acquisitions and Divestitures	\$ (521)	\$ (3,664)	\$ (1,565)

ACQUISITIONS

For the year ended December 31, 2013, acquisitions totaled \$184 million (2012 – \$379 million; 2011 – \$515 million), which primarily included land and property purchases with oil and liquids rich natural gas production potential.

DIVESTITURES

For the year ended December 31, 2013, amounts received on the sale of assets were \$705 million (2012 – \$4,043 million; 2011 – \$2,080 million). In 2013, divestitures were \$685 million in the Canadian Division and \$18 million in the USA Division.

The Canadian Division and USA Division divestitures included the following transactions:

CANADIAN DIVISION

In 2013, divestitures in the Canadian Division included the sale of the Company's Jean Marie natural gas assets in the Greater Sierra resource play in northeast British Columbia and other assets.

In 2012, Encana entered into a partnership agreement with a Mitsubishi Corporation subsidiary ("Mitsubishi") to jointly develop certain Cutbank Ridge lands in British Columbia. Under the agreement, Encana owns 60 percent and Mitsubishi owns 40 percent of the partnership. Mitsubishi agreed to invest approximately C\$2.9 billion for its partnership interest, with C\$1.45 billion received in February 2012. Mitsubishi agreed to invest the remaining amount of approximately C\$1.45 billion, in addition to its 40 percent of the partnership's future capital investment, over an expected commitment period of five years, thereby reducing Encana's capital funding commitment to 30 percent of the total expected capital investment.

In 2012, the Company entered into an agreement with a PetroChina Company Limited subsidiary ("PetroChina") to jointly explore and develop certain liquids rich natural gas Duvernay lands in Alberta. PetroChina agreed to invest approximately C\$2.18 billion for a 49.9 percent working interest in the lands. PetroChina invested C\$1.18 billion in December 2012 and agreed to further invest approximately C\$1.0 billion which will be used to fund half of Encana's capital funding commitment over an expected commitment period of four years.

In 2012, Encana entered into an agreement with a Toyota Tsusho Corporation subsidiary ("Toyota Tsusho") under which Toyota Tsusho agreed to invest approximately C\$600 million to acquire a 32.5 percent gross overriding royalty interest in natural gas production from a portion of Encana's Clearwater resource play. Toyota Tsusho invested C\$100 million in April 2012 and agreed to further invest approximately C\$500 million over an expected commitment period of seven years.

In 2012, the Company also closed the sale of two natural gas processing plants in British Columbia and Alberta for proceeds of approximately C\$920 million.

USA DIVISION

In December 2011, the Company closed the majority of the North Texas asset sale for proceeds of \$836 million. The remainder of the sale closed in March 2012 for proceeds of \$114 million. During 2011, Encana also sold its Fort Lupton natural gas processing plant for proceeds of \$296 million and its South Piceance natural gas gathering assets for proceeds of \$547 million.

Amounts received from these transactions have been deducted from the respective Canadian and U.S. full cost pools.

4. INTEREST

For the years ended December 31	2013	2012	2011
Interest Expense on:			
Debt	\$ 460	\$ 474	\$ 488
The Bow office building	76	16	-
Capital leases and other	27	32	(20)
	\$ 563	\$ 522	\$ 468

Interest on The Bow office building and capital leases and other were previously reported together in other interest expense in 2012 and 2011.

5. FOREIGN EXCHANGE (GAIN) LOSS, NET

For the years ended December 31	2013	2012	2011
Unrealized Foreign Exchange (Gain) Loss on:			
Translation of U.S. dollar debt issued from Canada	\$ 349	\$ (131)	\$ 107
Translation of U.S. dollar risk management contracts issued from Canada	(19)	19	(11)
	330	(112)	96
Foreign Exchange on Intercompany Transactions	-	4	18
Other Monetary Revaluations and Settlements	(5)	1	19
	\$ 325	\$ (107)	\$ 133

6. INCOME TAXES

The provision for income taxes is as follows:

For the years ended December 31	2013	2012	2011
Current Tax			
Canada	\$ (152)	\$ (219)	\$ (373)
United States	(64)	(25)	102
Other Countries	25	44	76
Total Current Tax Expense (Recovery)	(191)	(200)	(195)
Deferred Tax			
Canada	(106)	(902)	(227)
United States	52	(935)	442
Other Countries	(3)	-	(3)
Total Deferred Tax Expense (Recovery)	(57)	(1,837)	212
Income Tax Expense (Recovery)	\$ (248)	\$ (2,037)	\$ 17

The following table reconciles income taxes calculated at the Canadian statutory rate with the actual income taxes:

For the years ended December 31	2013	2012	2011
Net Earnings (Loss) Before Income Tax			
Canada	\$ (316)	\$ (2,246)	\$ (1,973)
United States	46	(2,978)	1,477
Other Countries	258	393	518
Total Net Earnings (Loss) Before Income Tax	(12)	(4,831)	22
Canadian Statutory Rate	25.1%	25.0%	26.5%
Expected Income Tax	(3)	(1,208)	6
Effect on Taxes Resulting From:			
Statutory rate and other foreign differences	(42)	(412)	53
Effect of legislative changes	(70)	-	-
Non-taxable capital (gains) losses	48	(16)	20
Tax differences on divestitures and transactions	(28)	(307)	-
Partnership tax allocations in excess of funding	(41)	(40)	-
Amounts in respect of prior periods	(103)	(64)	(60)
Other	(9)	10	(2)
	\$ (248)	\$ (2,037)	\$ 17
Effective Tax Rate	2,066.7%	42.2%	77.3%

Statutory rate and other foreign differences above include statutory and other rate differences and international financing, which were previously reported separately in 2012 and 2011.

The net deferred income tax asset (liability) consists of:

As at December 31	2013	2012
Deferred Income Tax Assets		
Property, plant and equipment	\$ 786	\$ 995
Compensation plans	109	113
Accrued and unpaid expense	61	65
Non-capital and net capital losses carried forward	429	119
Alternative minimum tax and foreign tax credits	199	122
Less valuation allowance	(6)	-
Other	95	61
Deferred Income Tax Liabilities		
Property, plant and equipment	(407)	-
Risk management	(63)	(176)
Unrealized foreign exchange gains	(120)	(205)
Other	(29)	(14)
Net Deferred Income Tax Asset (Liability)	\$ 1,054	\$ 1,080

The net deferred income tax asset (liability) is reflected in the Consolidated Balance Sheet as follows:

As at December 31	2013	2012
Current deferred income tax asset	\$ 118	\$ 23
Non-current deferred income tax asset	939	1,116
Current deferred income tax liability	(3)	(59)
Net Deferred Income Tax Asset (Liability)	\$ 1,054	\$ 1,080

Tax pools, loss carryforwards, charitable donations and tax credits that can be utilized in future years are as follows:

As at December 31	2013	Expiration Date
Canada		
Tax pools	\$ 4,792	Indefinite
Net capital losses	269	Indefinite
Non-capital losses	505	2015 - 2033
Charitable donations	26	2015 - 2018
United States		
Tax basis	\$ 3,642	Indefinite
Non-capital losses	647	2033
Charitable donations	6	2018
Alternative minimum tax credits	55	Indefinite
Foreign tax credits (net of valuation allowance)	138	2021 - 2023

As at December 31, 2013, approximately \$2.6 billion of Encana's unremitted earnings from its foreign subsidiaries were considered to be permanently reinvested outside of Canada and, accordingly, Encana has not recognized a deferred tax liability for Canadian income taxes in respect of such earnings. If such earnings were to be remitted to Canada, Encana may be subject to Canadian income taxes and foreign withholding taxes. However, determination of any potential amount of unrecognized deferred income tax liabilities is not practicable.

The following table presents changes in the balance of Encana's unrecognized tax benefits excluding interest:

For the years ended December 31	2013	2012
Balance, Beginning of Year	\$ 164	\$ 165
Additions for tax positions taken in the current year	-	2
Additions for tax positions of prior years	-	3
Reductions for tax positions of prior years	(2)	(2)
Lapse of statute of limitations	(4)	(4)
Settlements	(29)	(4)
Foreign currency translation	(10)	4
Balance, End of Year	\$ 119	\$ 164

The unrecognized tax benefit is reflected in the Consolidated Balance Sheet as follows:

For the years ended December 31	2013	2012
Income tax receivable	\$ -	\$ 59
Other liabilities and provisions (See Note 13)	133	134
Current deferred income tax liability	2	5
Non-current deferred income tax asset	(16)	(34)
Balance, End of Year	\$ 119	\$ 164

If recognized, all of Encana's unrecognized tax benefits as at December 31, 2013 would affect Encana's effective income tax rate. Encana does not anticipate that the amount of unrecognized tax benefits will significantly change during the next 12 months.

Encana recognizes interest accrued in respect of unrecognized tax benefits in interest expense. During 2013, Encana recognized a recovery of \$6 million (2012 – \$8 million; 2011 – \$18 million) in interest expense. As at December 31, 2013, Encana had a liability of \$1 million (2012 – \$3 million) for interest accrued in respect of unrecognized tax benefits.

Included below is a summary of the tax years, by jurisdiction, that remain subject to examination by the taxation authorities.

Jurisdiction	Taxation Year
Canada - Federal	2005 - 2013
Canada - Provincial	2005 - 2013
United States - Federal	2008 - 2013
United States - State	2008 - 2013
Other	2012 - 2013

Encana and its subsidiaries file income tax returns primarily in Canada and the United States. Issues in dispute for audited years and audits for subsequent years are ongoing and in various stages of completion.

7. ACCOUNTS RECEIVABLE AND ACCRUED REVENUES

As at December 31	2013	2012
Trade Receivables and Accrued Revenue	\$ 864	\$ 905
Prepays, Deposits and Other	130	350
	994	1,255
Allowance for Doubtful Accounts	(6)	(19)
	\$ 988	\$ 1,236

Trade receivables are non-interest bearing. In determining the recoverability of trade receivables, the Company considers the age of the outstanding receivable and the credit worthiness of the counterparties. See Note 21 for further information about credit risk.

8. PROPERTY, PLANT AND EQUIPMENT, NET

As at December 31	2013			2012		
	Cost	Accumulated DD&A ⁽¹⁾	Net	Cost	Accumulated DD&A ⁽¹⁾	Net
Canadian Division						
Proved properties	\$ 25,003	\$ (23,012)	\$ 1,991	\$ 26,024	\$ (23,962)	\$ 2,062
Unproved properties	598	-	598	716	-	716
Other	139	-	139	182	-	182
	25,740	(23,012)	2,728	26,922	(23,962)	2,960
USA Division						
Proved properties	26,529	(22,074)	4,455	24,825	(21,236)	3,589
Unproved properties	470	-	470	579	-	579
Other	202	-	202	237	-	237
	27,201	(22,074)	5,127	25,641	(21,236)	4,405
Market Optimization	223	(132)	91	235	(129)	106
Corporate & Other	2,655	(566)	2,089	2,829	(549)	2,280
	\$ 55,819	\$ (45,784)	\$ 10,035	\$ 55,627	\$ (45,876)	\$ 9,751

(1) Depreciation, depletion and amortization.

The Canadian Division and USA Division property, plant and equipment include internal costs directly related to exploration, development and construction activities of \$372 million which have been capitalized during the year ended December 31, 2013 (2012 – \$471 million). Included in Corporate and Other are \$71 million (2012 – \$104 million) of international property costs, which have been fully impaired.

For the year ended December 31, 2013, the Company recognized a ceiling test impairment of nil (2012 – \$1,822 million; 2011 – \$2,249 million) in the Canadian cost centre and nil (2012 – \$2,842 million; 2011 – nil) in the U.S. cost centre. The impairments resulted primarily from the decline in the 12-month average trailing natural gas prices which reduced proved reserves volumes and values.

The 12-month average trailing prices used in the ceiling test calculations reflect benchmark prices adjusted for basis differentials to determine local reference prices, transportation costs and tariffs, heat content and quality. The benchmark prices are disclosed in Note 24.

CAPITAL LEASE ARRANGEMENTS

The Company has several lease arrangements that are accounted for as capital leases, including an office building, equipment and an offshore production platform.

In December 2013, Encana commenced commercial operations at its Deep Panuke facility located offshore Nova Scotia following successful completion of the Production Field Centre (“PFC”) and issuance of the Production Acceptance Notice. As at December 31, 2013, Canadian Division property, plant and equipment and total assets include the PFC, which is under a capital lease totaling \$536 million. As at December 31, 2012, \$612 million in accumulated costs related to the PFC were recorded as an asset under construction.

During 2011, the Company entered into a capital lease arrangement in the U.S. whereby the beneficial rights of ownership of specific equipment would be conveyed to Encana over five years. The Company recorded an asset under capital lease with a corresponding capital lease obligation totaling \$158 million, which was subsequently paid by Encana.

As at December 31, 2013, the total carrying value of assets under capital lease was \$683 million (2012 – \$207 million).

OTHER ARRANGEMENT

As at December 31, 2013, Corporate and Other property, plant and equipment and total assets include Encana’s accumulated costs to date of \$1,617 million (2012 – \$1,668 million) related to The Bow office building. In 2012, Encana assumed partial occupancy of The Bow office premises and commenced payments to the third party developer under a 25-year lease agreement. As of March 31, 2013, Encana had assumed full occupancy of the building. The Bow asset is being depreciated over the 60-year estimated life of the building. At the conclusion of the 25-year term, the remaining asset and corresponding liability are expected to be derecognized as disclosed in Note 13.

Liabilities for the capital lease arrangements and The Bow office building are included in other liabilities and provisions in the Consolidated Balance Sheet and are disclosed in Note 13.

9. OTHER ASSETS

As at December 31	2013	2012
Deferred Charges and Debt Transaction Costs	\$ 58	\$ 61
Long-Term Receivables	184	180
Long-Term Investments and Other	284	225
	\$ 526	\$ 466

10. GOODWILL

As at December 31	2013	2012
Canada	\$ 1,171	\$ 1,252
United States	473	473
	\$ 1,644	\$ 1,725

There have been no additions or dispositions of goodwill during 2013 or 2012 and the Company has not recognized any previous goodwill impairments. The change in the Canada goodwill balance between December 31, 2013 and December 31, 2012 reflects movements due to foreign currency translation.

Goodwill was assessed for impairment as at December 31, 2013 and December 31, 2012. The fair values of the Canada and United States reporting units were determined to be greater than the respective carrying values of the reporting units. Accordingly, no goodwill impairments were recognized.

11. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

As at December 31	2013	2012
Trade Payables	\$ 265	\$ 417
Capital Accruals	398	415
Royalty and Production Accruals	473	497
Other Accruals	514	490

A) REVOLVING CREDIT AND TERM LOAN BORROWINGS

During 2012, the Company issued commercial paper. There are no outstanding balances related to the Company's commercial paper or revolving credit facilities as at December 31, 2013 or December 31, 2012. Standby fees paid in 2013 relating to Canadian and U.S. revolving credit and term loan agreements were approximately \$14 million (2012 – \$15 million; 2011 – \$5 million).

Encana is subject to certain financial covenants in its credit facility agreements and is in compliance with all financial covenants.

CANADIAN REVOLVING CREDIT AND TERM LOAN BORROWINGS

At December 31, 2013, Encana had in place a committed revolving bank credit facility for C\$3.5 billion or its equivalent amount in U.S. dollars (\$3.3 billion), all of which remained unused. In June 2013, the Company extended the maturity date of its existing revolving bank credit facility and reduced the facility from C\$4.0 billion to C\$3.5 billion. The facility, which matures in June 2018, is fully revolving up to maturity. The facility is extendible from time to time, but not more than once per year, for a period not longer than five years plus 90 days from the date of the extension request, at the option of the lenders and upon notice from Encana. The facility is unsecured and bears interest at the lenders' rates for Canadian prime, U.S. base rate, Bankers' Acceptances or LIBOR, plus applicable margins.

U.S. REVOLVING CREDIT AND TERM LOAN BORROWINGS

At December 31, 2013, one of Encana's subsidiaries had in place a committed revolving bank credit facility for \$1.0 billion, of which \$999 million remained unused. In June 2013, the Company extended the maturity date of its existing revolving bank credit facility. The facility, which matures in June 2018, is guaranteed by Encana Corporation and is fully revolving up to maturity. The facility is extendible from time to time, but not more than once per year, for a period not longer than five years plus 90 days from the date of the extension request, at the option of the lenders and upon notice from the subsidiary. This facility bears interest at either the lenders' U.S. base rate or at LIBOR plus applicable margins.

B) UNSECURED NOTES

Unsecured notes include medium-term notes and senior notes that are issued from time to time under trust indentures and have equal priority with respect to the payment of both principal and interest.

CANADIAN UNSECURED NOTES

At December 31, 2012, Encana had in place an unutilized debt shelf prospectus for Canadian unsecured medium-term notes in the amount of C\$2.0 billion which expired in June 2013 and was not renewed.

U.S. UNSECURED NOTES

Encana has in place a debt shelf prospectus for U.S. unsecured notes in the amount of \$4.0 billion under the multijurisdictional disclosure system. The shelf prospectus provides that debt securities in U.S. dollars or other foreign currencies may be issued from time to time in one or more series. Terms of the notes, including interest at either fixed or floating rates and maturity dates, are determined by reference to market conditions at the date of issue. The shelf prospectus was filed in May 2012 and expires in June 2014. As at December 31, 2013, \$4.0 billion of the shelf prospectus remained unutilized, the availability of which is dependent upon market conditions.

In November 2011, Encana completed a public offering in the U.S. of senior unsecured notes of \$600 million with a coupon rate of 3.90 percent due November 15, 2021 and \$400 million with a coupon rate of 5.15 percent due November 15, 2041. The net proceeds of the offering totaling \$989 million were used to repay a portion of Encana's commercial paper indebtedness, a portion of which was incurred to repay Encana's \$500 million 6.30 percent notes that matured November 1, 2011.

The 5.80 percent notes due May 1, 2014 were issued by the Company's indirect 100 percent owned subsidiary, Encana Holdings Finance Corp. This note is fully and unconditionally guaranteed by Encana Corporation.

C) INCREASE IN VALUE OF DEBT ACQUIRED

Certain of the notes and debentures of the Company were acquired in business combinations and were accounted for at their fair value at the dates of acquisition. The difference between the fair value and the principal amount of the debt is being amortized over the remaining life of the outstanding debt acquired, approximately 17 years.

D) DEBT DISCOUNTS

Long-term debt premiums and discounts are capitalized within long-term debt and are being amortized using the effective interest method. During 2013 and 2012, no discounts were capitalized relating to the issuance of U.S. unsecured notes.

E) CURRENT PORTION OF LONG-TERM DEBT

As at December 31	C\$ Principal Amount	2013	2012
4.75% due October 15, 2013	\$ -	\$ -	\$ 500
5.80% due May 1, 2014	-	1,000	-
	\$ -	\$ 1,000	\$ 500

F) MANDATORY DEBT PAYMENTS

As at December 31	C\$ Principal Amount	US\$ Principal Amount	Total US\$ Equivalent
2014	\$ -	\$ 1,000	\$ 1,000
2015	-	-	-
2016	-	-	-
2017	-	700	700
2018	750	-	705
Thereafter	-	4,700	4,700
Total	\$ 750	\$ 6,400	\$ 7,105

Long-term debt is accounted for at amortized cost using the effective interest method of amortization. As at December 31, 2013, total long-term debt had a carrying value of \$7,124 million and a fair value of \$7,805 million (2012 – \$7,675 million carrying value and a fair value of \$9,043 million). The estimated fair value of long-term borrowings is categorized within Level 2 of the fair value hierarchy and has been determined based on market information, or by discounting future payments of interest and principal at estimated interest rates expected to be available to the Company at period end.

13. OTHER LIABILITIES AND PROVISIONS

As at December 31	2013	2012
The Bow Office Building (See Note 8)	\$ 1,631	\$ 1,674
Asset under Construction - Production Field Centre (See Note 8)	-	612
Capital Lease Obligations (See Note 8)	544	69
Unrecognized Tax Benefits (See Note 6)	133	134
Pensions and Other Post-Employment Benefits (See Note 19)	110	165
Other	102	18
	\$ 2,520	\$ 2,672

THE BOW OFFICE BUILDING

As described in Note 8, Encana has recognized the accumulated costs for The Bow office building as an asset with a related liability. In 2012, Encana commenced payments to the third party developer under a 25-year agreement. At the conclusion of the 25-year term, the remaining asset and corresponding liability are expected to be derecognized. Encana has also subleased part of The Bow office space to a subsidiary of Cenovus Energy Inc. The total undiscounted future payments related to the lease agreement and the total undiscounted future amounts expected to be recovered from the Cenovus sublease are outlined below.

(undiscounted)	2014	2015	2016	2017	2018	Thereafter	Total
Expected future lease payments	\$ 87	\$ 87	\$ 88	\$ 89	\$ 90	\$ 1,893	\$ 2,334
Sublease recoveries	\$ (43)	\$ (43)	\$ (44)	\$ (44)	\$ (44)	\$ (939)	\$ (1,157)

CAPITAL LEASE OBLIGATIONS

As described in Note 8, the PFC commenced commercial operations in December 2013. Accordingly, Encana derecognized the asset under construction and related liability and recorded the PFC as a capital lease asset with a corresponding capital lease obligation. Under the lease contract, Encana has a purchase option and the option to extend the lease for 12 one-year terms at fixed prices after the initial lease term expires in 2021. As a result, the lease contract qualifies as a variable interest and the related leasing entity qualifies as a variable interest entity ("VIE"). Encana is not the primary beneficiary of the VIE as the Company does not have the power to direct the activities that most significantly impact the VIE's economic performance. Encana is not required to provide any financial support or guarantees to the lease entity and its affiliates, other than the contractual payments under the lease and operating contracts.

The total expected future lease payments related to the Company's capital lease obligations are outlined below.

	2014	2015	2016	2017	2018	Thereafter	Total
Expected future lease payments	\$ 106	\$ 93	\$ 93	\$ 94	\$ 94	\$ 315	\$ 795
Less amounts representing interest	40	32	28	25	20	40	185
Present value of expected future lease payments	\$ 66	\$ 61	\$ 65	\$ 69	\$ 74	\$ 275	\$ 610

14. ASSET RETIREMENT OBLIGATION

As at December 31	2013	2012
Asset Retirement Obligation, Beginning of Year	\$ 969	\$ 921
Liabilities Incurred	38	43
Liabilities Settled	(126)	(90)
Change in Estimated Future Cash Outflows	68	28
Accretion Expense	53	53
Foreign Currency Translation	(36)	14
Asset Retirement Obligation, End of Year	\$ 966	\$ 969
Current Portion (See Note 11)	\$ 66	\$ 33
Long-Term Portion	900	936
	\$ 966	\$ 969

Encana is responsible for the retirement of long-lived assets related to its oil and gas assets and midstream assets at the end of their useful lives.

15. SHARE CAPITAL

AUTHORIZED

The Company is authorized to issue an unlimited number of no par value common shares, an unlimited number of first preferred shares and an unlimited number of second preferred shares.

ISSUED AND OUTSTANDING

As at December 31	2013		2012	
	Number (millions)	Amount	Number (millions)	Amount
Common Shares Outstanding, Beginning of Year	736.3	\$ 2,354	736.3	\$ 2,354
Common Shares Cancelled	(0.8)	(2)	-	-
Common Shares Issued under Dividend Reinvestment Plan	5.4	93	-	-
Common Shares Outstanding, End of Year	740.9	\$ 2,445	736.3	\$ 2,354

During the year ended December 31, 2013, Encana cancelled 767,327 common shares reserved for issuance to shareholders upon exchange of predecessor companies' shares. In accordance with the terms of the merger agreement which formed Encana, shares which have remained unexchanged were extinguished. Accordingly, the weighted average book value of the common shares extinguished of \$2 million has been transferred to paid in surplus.

During the year ended December 31, 2013, Encana issued 5,385,845 common shares totaling \$93 million under the Company's dividend reinvestment plan.

DIVIDENDS

For the year ended December 31, 2013, Encana paid dividends of \$0.67 per common share totaling \$494 million (2012 – \$0.80 per common share totaling \$588 million; 2011 – \$0.80 per common share totaling \$588 million). The Company's quarterly dividend payment in 2013 was \$0.20 per common share for the first three quarters and \$0.07 per common share for the fourth quarter. The Company's quarterly dividend payment in 2012 and 2011 was \$0.20 per common share.

For the year ended December 31, 2013, the dividends paid included \$93 million in common shares as disclosed above, which were issued in lieu of cash dividends under the Company's dividend reinvestment plan (2012 – nil; 2011 – nil).

On February 12, 2014, the Board declared a dividend of \$0.07 per common share payable on March 31, 2014 to common shareholders of record as of March 14, 2014.

EARNINGS PER COMMON SHARE

The following table presents the computation of net earnings per common share:

For the years ended December 31 (millions, except per share amounts)	2013	2012	2011
Net Earnings (Loss)	\$ 236	\$ (2,794)	\$ 5
Number of Common Shares:			
Weighted average common shares outstanding - Basic	737.7	736.3	736.3
Effect of dilutive securities	-	-	0.9
Weighted average common shares outstanding - Diluted	737.7	736.3	737.2
Net Earnings (Loss) per Common Share			
Basic	\$ 0.32	\$ (3.79)	\$ 0.01
Diluted	\$ 0.32	\$ (3.79)	\$ 0.01

ENCANA STOCK OPTION PLAN

Encana has share-based compensation plans that allow employees to purchase common shares of the Company. Option exercise prices are not less than the market value of the common shares on the date the options are granted. Options granted are exercisable at 30 percent of the number granted after one year, an additional 30 percent of the number granted after two years, are fully exercisable after three years and expire five years after the date granted.

All options outstanding as at December 31, 2013 have associated Tandem Stock Appreciation Rights (“TSARs”) attached. In lieu of exercising the option, the associated TSARs give the option holder the right to receive a cash payment equal to the excess of the market price of Encana’s common shares at the time of the exercise over the original grant price. In addition, certain stock options granted are performance-based. The Performance TSARs vest and expire under the same terms and conditions as the underlying option. Vesting is also subject to Encana attaining prescribed performance relative to predetermined key measures. Historically, most holders of options with TSARs have elected to exercise their stock options as a Stock Appreciation Right (“SAR”) in exchange for a cash payment. See Note 18 for further information on Encana’s outstanding and exercisable TSARs and Performance TSARs.

At December 31, 2013, there were 19.1 million common shares reserved for issuance under stock option plans (2012 – 18.8 million; 2011 – 10.9 million).

ENCANA RESTRICTED SHARE UNITS (“RSUs”)

Encana has a share-based compensation plan whereby eligible employees are granted RSUs. An RSU is a conditional grant to receive an Encana common share, or the cash equivalent, as determined by Encana, upon vesting of the RSUs and in accordance with the terms of the RSU Plan and Grant Agreement. The value of one RSU is notionally equivalent to one Encana common share. RSUs vest three years from the date granted, provided the employee remains actively employed with Encana on the vesting date. The Company intends to settle vested RSUs in cash on the vesting date. As a result, Encana does not consider RSUs to be potentially dilutive securities. See Note 18 for further information on Encana’s outstanding RSUs.

ENCANA SHARE UNITS HELD BY CENOVUS EMPLOYEES

On November 30, 2009, Encana completed a corporate reorganization to split into two independent publicly traded energy companies – Encana Corporation and Cenovus Energy Inc. (the “Split Transaction”). In conjunction with the Split Transaction, each holder of Encana share units disposed of their right in exchange for the grant of new Encana share units and Cenovus share units. Share units include TSARs, Performance TSARs, SARs and Performance SARs. The terms and conditions of the share units are similar to the terms and conditions of the original share units.

With respect to the Encana share units held by Cenovus employees and the Cenovus share units held by Encana employees, both Encana and Cenovus have agreed to reimburse each other for share units exercised for cash by their respective employees. Accordingly, for Encana share units held by Cenovus employees, Encana has recorded a payable to Cenovus employees and a receivable due from Cenovus. The payable to Cenovus employees and the receivable due from Cenovus are based on the fair value of the Encana share units determined using the Black-Scholes-Merton model (See Notes 18 and 20). There is no impact on Encana’s net earnings for the share units held by Cenovus employees. TSARs and Performance TSARs held by Cenovus employees will expire by December 2014. No further Encana share units have been granted to Cenovus employees since the Split Transaction.

Cenovus employees may exercise Encana TSARs and Encana Performance TSARs in exchange for Encana common shares. As at December 31, 2013, there were 1.5 million Encana TSARs and 2.4 million Encana Performance TSARs with a weighted average exercise price of C\$29.09 and C\$29.04, respectively, held by Cenovus employees, which were outstanding and exercisable.

16. ACCUMULATED OTHER COMPREHENSIVE INCOME

For the years ended December 31	2013	2012
Foreign Currency Translation Adjustment		
Balance, Beginning of Year	\$ 739	\$ 658
Change in Foreign Currency Translation Adjustment	(46)	81
Balance, End of Year	693	739
Pension and Other Post-Employment Benefit Plans		
Balance, Beginning of Year	(69)	(82)

Income Taxes	(17)	(1)
Reclassification of Net Actuarial (Gains) and Losses to Net Earnings (See Note 19)	11	15
Income Taxes	(3)	(4)
Settlement and Curtailment in Defined Benefit Plan Expense (See Note 19)	6	-
Income Taxes	(2)	-
Balance, End of Year	(9)	(69)
Total Accumulated Other Comprehensive Income	\$ 684	\$ 670

17. RESTRUCTURING CHARGES

In November 2013, Encana announced its plans to align the organizational structure in support of the new strategy and its intention to reduce the Company's workforce by approximately 20 percent. In conjunction with the restructuring, Encana also announced its plan to close the Company's office, located in Plano Texas, in 2014. For the year ended December 31, 2013, Encana has incurred restructuring charges totaling \$88 million relating primarily to severance costs, which are included in administrative expenses in the Company's Consolidated Statement of Earnings. Of the \$88 million in restructuring charges incurred to date, \$65 million remains accrued as at December 31, 2013. Total charges associated with the restructuring are anticipated to be complete in 2015 and are expected to be approximately \$130 million before tax.

18. COMPENSATION PLANS

Encana has a number of compensation arrangements under which the Company awards various types of long-term incentive grants to eligible employees. They include TSARs, Performance TSARs, SARs, Performance SARs, Performance Share Units ("PSUs"), Deferred Share Units ("DSUs"), RSUs and a Restricted Cash Plan. The majority of these compensation arrangements are share-based.

Encana accounts for TSARs, Performance TSARs, SARs, Performance SARs, PSUs, and RSUs held by Encana employees as cash-settled share-based payment transactions and, accordingly, accrues compensation costs over the vesting period based on the fair value of the rights determined using the Black-Scholes-Merton and other fair value models. TSARs, Performance TSARs, SARs and Performance SARs granted vest and are exercisable at 30 percent of the number granted after one year, an additional 30 percent of the number granted after two years, are fully exercisable after three years (with the exception of Performance TSARs granted in 2013) and expire five years after the date granted. PSUs and RSUs vest three years from the date of grant, provided the employee remains actively employed with Encana on the vesting date.

The following weighted average assumptions were used to determine the fair value of the share units held by Encana employees:

As at December 31, 2013	Encana US\$ Share Units	Encana C\$ Share Units	Cenovus C\$ Share Units
Risk Free Interest Rate	1.09%	1.09%	1.09%
Dividend Yield	1.55%	1.50%	3.18%
Expected Volatility Rate	33.20%	30.42%	27.75%
Expected Term	1.8 yrs	1.7 yrs	0.1 yrs
Market Share Price	US\$18.05	C\$19.18	C\$30.40

As at December 31, 2012	Encana US\$ Share Units	Encana C\$ Share Units	Cenovus C\$ Share Units
Risk Free Interest Rate	1.14%	1.14%	1.14%
Dividend Yield	4.05%	4.07%	2.64%
Expected Volatility Rate	34.31%	30.51%	30.18%
Expected Term	2.0 yrs	1.3 yrs	0.5yrs
Market Share Price	US\$19.76	C\$19.66	C\$33.29

For both Encana and Cenovus share units held by Encana employees, volatility was estimated using historical volatility rates.

The Company has recognized the following share-based compensation costs:

For the years ended December 31	2013	2012	2011
Compensation Costs of Transactions Classified as Cash-Settled	\$ 63	\$ 42	\$ 28
Compensation Costs of Transactions Classified as Equity-Settled ⁽¹⁾	3	5	-
Total Share-Based Compensation Costs	66	47	28
Less: Total Share-Based Compensation Costs Capitalized	(22)	(14)	(14)
Total Share-Based Compensation Expense	\$ 44	\$ 33	\$ 14
Recognized on the Consolidated Statement of Earnings in:			
Operating expense	\$ 18	\$ 13	\$ 8
Administrative expense	26	20	6
	\$ 44	\$ 33	\$ 14

(1) RSUs may be settled in cash or equity as determined by Encana. The Company's decision to cash settle RSUs was made subsequent to the original grant date.

As at December 31, 2013, the liability for share-based payment transactions totaled \$169 million, of which \$111 million is recognized in accounts payable and accrued liabilities.

For the years ended December 31	2013	2012	2011
Liability for Unvested Cash-Settled Share-Based Payment Transactions	\$ 121	\$ 85	\$ 69
Liability for Vested Cash-Settled Share-Based Payment Transactions	48	71	86
Liability for Cash-Settled Share-Based Payment Transactions	\$ 169	\$ 156	\$ 155

The following sections outline certain information related to Encana's compensation plans as at December 31, 2013.

A) TANDEM STOCK APPRECIATION RIGHTS

All options to purchase common shares issued under the Encana Stock Option Plan have associated TSARs attached. In lieu of exercising the option, the associated TSARs give the option holder the right to receive a cash payment equal to the excess of the market price of Encana's common shares at the time of exercise over the exercise price. The TSARs vest and expire under the same terms and conditions as the underlying option.

The following tables summarize information related to the Encana TSARs held by Encana employees:

As at December 31	2013		2012	
(thousands of units)	Outstanding TSARs	Weighted Average Exercise Price (C\$)	Outstanding TSARs	Weighted Average Exercise Price (C\$)

Range of Exercise Price (C\$)					
20.00 to 29.99	527	0.13	26.29	527	26.29

During the year, Encana recorded compensation costs of \$21 million related to the Encana TSARs and a reduction in compensation costs of \$4 million related to the Cenovus TSARs (2012 – compensation costs of \$6 million related to the Encana TSARs and a reduction of compensation costs of \$1 million related to the Cenovus TSARs; 2011 – reduction of compensation costs of \$4 million related to the Encana TSARs and compensation costs of \$6 million related to Cenovus TSARs).

B) PERFORMANCE TANDEM STOCK APPRECIATION RIGHTS

From 2007 to 2009, Encana granted Performance TSARs. Upon vesting, in lieu of exercising the option, the option holder has the right to receive a cash payment equal to the excess of the market price of Encana's common shares at the time of exercise over the exercise price. The Performance TSARs vest and expire under the same terms and conditions as the underlying option. Vesting is also subject to Encana attaining prescribed performance relative to an internal recycle ratio and predetermined performance targets. Performance TSARs that do not vest when eligible are forfeited and cancelled.

In 2013, Encana granted Performance TSARs to the President & Chief Executive Officer ("CEO"). Upon vesting, in lieu of exercising the option, the CEO has the right to receive a cash payment equal to the excess of the market price of Encana's common shares at the time of exercise over the exercise price. The Performance TSARs vest and expire over the same terms and conditions as the underlying option. Under this 2013 grant, vesting is also subject to Encana achieving prescribed performance targets over a four-year period based on Encana's share price performance. Performance TSARs that do not vest when eligible are forfeited and cancelled.

The following tables summarize information related to the Encana Performance TSARs held by Encana employees:

As at December 31	2013		2012	
(thousands of units)	Outstanding Performance TSARs	Weighted Average Exercise Price (C\$)	Outstanding Performance TSARs	Weighted Average Exercise Price (C\$)

20.00 to 29.99	953	0.11	26.27	953	26.27

During the year, Encana recorded compensation costs of \$1 million related to the Encana Performance TSARs and a reduction in compensation costs of \$6 million related to the Cenovus Performance TSARs (2012 – reduction of compensation costs of \$1 million related to the Encana Performance TSARs and reduction of compensation costs of \$2 million related to the Cenovus Performance TSARs; 2011 – reduction of compensation costs of \$12 million related to the Encana Performance TSARs and compensation costs of \$14 million related to the Cenovus Performance TSARs).

C) STOCK APPRECIATION RIGHTS

During 2008 and 2009, Canadian dollar denominated SARs were granted to employees, which entitle the employee to receive a cash payment equal to the excess of the market price of Encana's common shares at the time of exercise over the exercise price of the right.

The following tables summarize information related to the Encana SARs held by Encana employees:

As at December 31	2013		2012	
(thousands of units)	Outstanding SARs	Weighted Average Exercise Price (C\$)	Outstanding SARs	Weighted Average Exercise Price (C\$)
Outstanding, Beginning of Year	1,843	33.79	1,973	33.81

30.00 to 39.99	2	0.77	30.63	2	30.63
	230	0.14	26.42	230	26.42

During the year, Encana recorded compensation costs of \$1 million related to the Encana SARs and a reduction in compensation costs of \$2 million related to the Cenovus SARs (2012 – compensation costs of \$7 million related to the Encana SARs and a reduction in compensation costs of \$1 million related to the Cenovus SARs; 2011 – a reduction in compensation costs of \$5 million related to the Encana SARs and compensation costs of \$3 million related to the Cenovus SARs).

D) PERFORMANCE STOCK APPRECIATION RIGHTS

During 2008 and 2009, Encana granted Performance SARs to certain employees, which entitle the employee to receive a cash payment equal to the excess of the market price of Encana's common shares at the time of exercise over the grant price. Performance SARs are subject to Encana attaining prescribed performance relative to an internal recycle ratio and predetermined key measures. Performance SARs that do not vest when eligible are forfeited.

The following tables summarize information related to the Encana Performance SARs held by Encana employees:

As at December 31	2013		2012	
(thousands of units)	Outstanding Performance SARs	Weighted Average Exercise Price (C\$)	Outstanding Performance SARs	Weighted Average Exercise Price (C\$)
Outstanding, Beginning of Year	2,455	32.20	2,710	32.07

	Number of SARs (thousands of units)	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price (C\$)	Number of SARs (thousands of units)	Weighted Average Exercise Price (C\$)
Range of Exercise Price (C\$)					
20.00 to 29.99	385	0.11	26.27	385	26.27

During the year, Encana recorded no compensation costs related to the Encana Performance SARs and a reduction in compensation costs of \$3 million related to the Cenovus Performance SARs (2012 – no compensation costs related to the Encana Performance SARs and no compensation costs related to the Cenovus Performance SARs; 2011 – a reduction of compensation costs of \$4 million related to the Encana Performance SARs and compensation costs of \$5 million related to the Cenovus Performance SARs).

E) PERFORMANCE SHARE UNITS

Since 2010, PSUs have been granted to eligible employees, which entitle the employee to receive, upon vesting, a cash payment equal to the value of one common share of Encana for each PSU held, depending upon the terms of the PSU Plan. PSUs vest three years from the date of grant, provided the employee remains actively employed with Encana on the vesting date.

The ultimate value of the PSUs will depend upon Encana's performance relative to predetermined corresponding performance targets measured over a three-year period. For grants during 2010 through 2012, performance is measured relative to an internal recycle ratio as assessed by the Board on an annual basis to determine whether the performance criteria have been met. Based on this assessment, up to a maximum of two times the original PSU grant may be eligible to vest in respect of the year being measured. The respective proportion of the original PSU grant deemed eligible to vest for each year will be valued and the notional cash value deposited to a PSU account, with payout deferred to the final vesting date. For grants made in 2013, performance is measured over a three-year period relative to a specified performance peer group.

The following tables summarize information related to the PSUs:

(thousands of units)	Canadian Dollar Denominated Outstanding PSUs	
	2013	2012
As at December 31		
Outstanding, Beginning of Year	961	1,238
Granted	856	213
Deemed Eligible to Vest	(552)	(427)
Units, in Lieu of Dividends	40	37
Forfeited	(171)	(100)
Outstanding, End of Year	1,134	961

(thousands of units)	U.S. Dollar Denominated Outstanding PSUs	
	2013	2012
As at December 31		
Outstanding, Beginning of Year	693	1,089
Granted	192	27
Deemed Eligible to Vest	(474)	(393)
Units, in Lieu of Dividends	14	27
Forfeited	(62)	(57)
Outstanding, End of Year	363	693

As at December 31, 2013, there was approximately \$16 million of total unrecognized compensation costs related to unvested PSUs held by Encana employees. The costs are expected to be recognized over a weighted average period of 1.6 years.

During the year, Encana recorded compensation costs of \$11 million related to the outstanding PSUs (2012 – \$12 million; 2011 – \$15 million).

F) DEFERRED SHARE UNITS

The Company has in place a program whereby Directors and certain key employees are issued DSUs, which vest immediately, are equivalent in value to a common share of the Company and are settled in cash.

Under the DSU Plan, employees have the option to convert either 25 or 50 percent of their annual High Performance Results (“HPR”) award into DSUs. The number of DSUs converted is based on the value of the award divided by the closing value of Encana’s share price at the end of the performance period of the HPR award.

For both Directors and employees, DSUs can only be redeemed following departure from Encana in accordance with the terms of the respective DSU Plan and must be redeemed prior to December 15th of the year following the departure from Encana.

The following table summarizes information related to the DSUs:

(thousands of units)	Canadian Dollar Denominated Outstanding DSUs	
	2013	2012
As at December 31		
Outstanding, Beginning of Year	974	905
Granted	106	109
Converted from HPR awards	37	38
Units, in Lieu of Dividends	41	39
Redeemed	(131)	(117)
Outstanding, End of Year	1,027	974

During the year, Encana recorded compensation costs of \$2 million related to the outstanding DSUs (2012 – \$2 million; 2011 – reduction of \$5 million).

G) RESTRICTED SHARE UNITS

Since 2011, RSUs have been granted to eligible employees. An RSU is a conditional grant to receive an Encana common share, or the cash equivalent, as determined by Encana, upon vesting of the RSUs and in accordance with the terms of the RSU Plan and Grant Agreement. The value of one RSU is notionally equivalent to one Encana common share. RSUs vest three years from the date granted, provided the employee remains actively employed with Encana on the vesting date. As at December 31, 2013, Encana plans to settle the RSUs in cash on the vesting date.

The following tables summarize information related to the RSUs:

(thousands of units)	Canadian Dollar Denominated Outstanding RSUs	
	2013	2012
As at December 31		
Outstanding, Beginning of Year	1,966	1,751
Granted	3,873	298
Units, in Lieu of Dividends	205	77
Forfeited	(914)	(160)
Outstanding, End of Year	5,130	1,966

(thousands of units)	U.S. Dollar Denominated Outstanding RSUs	
	2013	2012
As at December 31		
Outstanding, Beginning of Year	1,596	1,574
Granted	2,458	83
Units, in Lieu of Dividends	139	63
Forfeited	(718)	(124)
Outstanding, End of Year	3,475	1,596

As at December 31, 2013, there was approximately \$71 million of total unrecognized compensation costs related to unvested RSUs held by Encana employees. The costs are expected to be recognized over a weighted average period of 1.5 years.

During the year, Encana recorded compensation costs of \$45 million related to the outstanding RSUs (2012 – \$25 million; 2011 – \$15 million). As at December 31, 2013, \$13 million of the paid in surplus balance related to the RSUs (2012 – \$10 million).

H) RESTRICTED CASH PLAN

In October 2011, Encana's Board approved the use of a Restricted Cash Plan as a component of the long-term incentive grant to eligible employees, excluding executive officers. The Restricted Cash Plan is a time-based conditional grant to receive cash which, in accordance with the corresponding grant agreement, requires that the employee remains actively employed with Encana on the vesting date. The Restricted Cash Plan vests over three years with one-third payable after each anniversary of the grant date. During the year, Encana recorded compensation costs of \$6 million (2012 – \$18 million; 2011 – \$6 million) related to the Restricted Cash Plan grant.

19. PENSION AND OTHER POST-EMPLOYMENT BENEFITS

The Company sponsors defined benefit and defined contribution plans and provides pension and other post-employment benefits ("OPEB") to its employees in Canada and the U.S. As of January 1, 2003, the defined benefit pension plan was closed to new entrants. The average remaining service period of active employees participating in the defined benefit pension plan is five years. The average remaining service period of the active employees participating in the OPEB plan is 12 years.

The Company is required to file an actuarial valuation of its pension plans with the provincial regulator at least every three years. The most recent filing was dated December 31, 2012 and the next required filing will be as at December 31, 2015.

The following tables set forth changes in the benefit obligations and fair value of plan assets for the Company's defined benefit pension and other post-retirement benefit plans for the years ended December 31, 2013 and 2012, as well as the funded status of the plans and amounts recognized in the financial statements as at December 31, 2013 and 2012.

As at December 31	Pension Benefits		OPEB	
	2013	2012	2013	2012
Change in Benefit Obligations				
Projected Benefit Obligation, Beginning of Year	\$ 357	\$ 344	\$ 105	\$ 95
Service cost	4	5	12	14
Interest cost	12	14	4	4
Actuarial (gains) losses	(22)	9	(6)	(5)
Exchange differences	(19)	8	-	-
Benefits paid	(22)	(23)	(4)	(3)
Plan amendment	-	-	(13)	-
Settlement	(26)	-	-	-
Curtailement	-	-	(5)	-
Special termination benefits	3	-	-	-
Projected Benefit Obligation, End of Year	\$ 287	\$ 357	\$ 93	\$ 105
Change in Plan Assets				
Fair Value of Plan Assets, Beginning of Year	\$ 309	\$ 275	\$ -	\$ -
Actual return on plan assets	40	26	-	-
Exchange differences	(21)	6	-	-
Employer contributions	12	25	4	3
Benefits paid	(22)	(23)	(4)	(3)
Settlement	(26)	-	-	-
Special termination benefits	(1)	-	-	-
Fair Value of Plan Assets, End of Year	\$ 291	\$ 309	\$ -	\$ -
Funded Status of Plan Assets, End of Year	\$ 4	\$ (48)	\$ (93)	\$ (105)
Total Recognized Amounts in the Consolidated Balance Sheet Consist of:				
Other assets	\$ 10	\$ 3	\$ -	\$ -
Current liabilities	-	-	(6)	(4)
Non-current liabilities	(6)	(51)	(87)	(101)
Total	\$ 4	\$ (48)	\$ (93)	\$ (105)
Total Recognized Amounts in Accumulated Other Comprehensive Income Consist of:				
Net actuarial (gain) loss	\$ 37	\$ 94	\$ (6)	\$ 1
Prior service costs	(6)	-	(8)	1
Net transitional obligation	-	-	-	3
Total recognized in accumulated other comprehensive income, before tax	\$ 31	\$ 94	\$ (14)	\$ 5

The accumulated defined benefit obligation for all defined benefit plans was \$362 million as at December 31, 2013 (2012 – \$437 million). The following sets forth the defined benefit plans with accumulated benefit obligation and projected benefit obligation in excess of the plan assets fair value:

As at December 31	Pension Benefits		OPEB	
	2013	2012	2013	2012
Projected Benefit Obligation	\$ (87)	\$ (357)	\$ (93)	\$ (105)
Accumulated Benefit Obligation	(72)	(332)	(93)	(105)
Fair Value of Plan Assets	81	305	-	-

Following are the weighted average assumptions used by the Company in determining the defined benefit pension and other post-employment benefit obligations:

As at December 31	Pension Benefits			OPEB	
	2013	2012		2013	2012
Discount Rate	4.50%	3.75%		4.45%	3.55%
Rates of Increase in Compensation Levels	3.99%	3.99%		6.38%	6.32%

The following sets forth total benefit plan expense recognized by the Company in 2013, 2012 and 2011:

For the years ended December 31	Pension Benefits			OPEB		
	2013	2012	2011	2013	2012	2011
Defined Benefit Plan Expense	\$ 21	\$ 6	\$ 14	\$ 11	\$ 18	\$ 17
Defined Contribution Plan Expense	43	44	43	-	-	-
Total Benefit Plans Expense	\$ 64	\$ 50	\$ 57	\$ 11	\$ 18	\$ 17

Of the total benefit plans expense, \$60 million (2012 – \$55 million; 2011 – \$60 million) was included in operating expense and \$15 million (2012 – \$13 million; 2011 – \$14 million) was included in administrative expense.

The defined periodic pension and OPEB expense is as follows:

For the years ended December 31	Pension Benefits			OPEB		
	2013	2012	2011	2013	2012	2011
Current service cost	\$ 4	\$ 5	\$ 5	\$ 12	\$ 14	\$ 12
Interest cost	12	14	15	4	4	4
Expected return on plan assets	(16)	(28)	(15)	-	-	-
Amounts reclassified from accumulated other comprehensive income:						
Amortization of net actuarial (gains) and losses	11	15	8	-	-	-
Amortization of transitional obligation	-	-	-	-	-	1
Amortization of net prior service costs	-	-	1	-	-	-
Settlement	5	-	-	-	-	-

Curtailment	-	-	-	(5)	-	-
Special termination benefits	4	-	-	-	-	-
Total Defined Benefit Plan Expense	\$ 21	\$ 6	\$ 14	\$ 11	\$ 18	\$ 17

The amounts recognized in other comprehensive income are as follows:

For the years ended December 31	Pension Benefits			OPEB		
	2013	2012	2011	2013	2012	2011
Net actuarial (gains) losses	\$ (46)	\$ 2	\$ 58	\$ (6)	\$ (5)	\$ (3)
Plan amendment	-	-	-	(13)	-	-
Amortization of net actuarial gains and losses	(11)	(15)	(8)	-	-	-
Amortization of transitional obligation	-	-	-	-	-	(1)
Amortization of net prior service costs	-	-	(1)	-	-	-
Net prior service costs (credit)	-	-	-	-	-	1
Settlement	(5)	-	-	-	-	-
Curtailment	(1)	-	-	-	-	-
Total amounts recognized in other comprehensive (income) loss, before tax	\$ (63)	\$ (13)	\$ 49	\$ (19)	\$ (5)	\$ (3)
Total amounts recognized in other comprehensive (income) loss, after tax	\$ (46)	\$ (9)	\$ 36	\$ (14)	\$ (4)	\$ (2)

The estimated net actuarial loss and net prior service costs for the pension and other post-retirement plans that will be amortized from accumulated other comprehensive income into net benefit plan expense in 2014 is nil.

Following are the weighted average assumptions used by the Company in determining the net periodic pension and other post-retirement benefit costs for 2013, 2012 and 2011.

For the years ended December 31	Pension Benefits			OPEB		
	2013	2012	2011	2013	2012	2011
Discount Rate	4.25%	4.00%	5.00%	3.59%	4.31%	5.11%
Long-Term Rate of Return on Plan Assets	6.75%	6.75%	6.75%	-	-	-
Rates of Increase in Compensation Levels	3.99%	4.11%	4.11%	6.35%	6.41%	6.42%

The Company's assumed health care cost trend rates are as follows:

For the years ended December 31	2013	2012	2011
Health care cost trend rate for next year	7.31%	7.70%	8.99%
Rate to which the cost trend rate is assumed to decline (ultimate trend rate)	4.61%	4.63%	4.64%
Year that the rate reaches the ultimate trend rate	2026	2025	2026

A one percent change in the assumed health care cost trend rate over the projected period would have the following effects:

(millions)	1% Increase		1% Decrease	
Effect on total of service and interest cost components	\$	2	\$	(1)
Effect on other post-retirement benefit obligations	\$	6	\$	(5)

The Company expects to contribute \$7 million to its defined benefit pension plans in 2014. The Company's OPEB plans are funded on an as required basis.

The following provides an estimate of benefit payments for the next 10 years. These estimates reflect benefit increases due to continuing employee service.

(millions)	Defined Benefit Pension Payments		Other Benefit Payments	
2014	\$	18	\$	6
2015		19		6
2016		19		7
2017		19		7
2018		20		7
2019 - 2023		99		35

The Company's defined benefit pension plan assets are presented by investment asset category and input level within the fair value hierarchy as follows:

As at December 31	2013			
	Level 1	Level 2	Level 3	Total
Investments:				
Cash and Cash Equivalents	\$ 51	\$ 1	\$ -	\$ 52
Fixed Income - Canadian Bond Funds	-	57	-	57
Equity - Domestic	35	62	-	97
Equity - International	-	71	-	71
Real Estate and Other	1	-	13	14
Fair Value of Plan Assets, End of Year	\$ 87	\$ 191	\$ 13	\$ 291

As at December 31	2012			
	Level 1	Level 2	Level 3	Total
Investments:				
Cash and Cash Equivalents	\$ 50	\$ 1	\$ -	\$ 51
Fixed Income - Canadian Bond Funds	-	75	-	75
Equity - Domestic	34	63	-	97
Equity - International	-	72	-	72
Real Estate and Other	1	-	13	14
Fair Value of Plan Assets, End of Year	\$ 85	\$ 211	\$ 13	\$ 309

Fixed income investments consist of Canadian bonds issued by investment grade companies. Equity investments consist of both domestic and international securities. The fair values of these securities are based on dealer quotes, quoted market prices, and net asset values as provided by the investment managers. Real Estate and Other consists mainly of commercial properties and is valued based on a discounted cash flow model.

As at December 31	Real Estate and Other	
	2013	2012
Balance, Beginning of Year	\$ 13	\$ 12
Purchases, issuances and settlements		
Purchases	-	-
Settlements	-	-
Actual return on plan assets		
Relating to assets sold during the reporting period	-	-
Relating to assets still held at the reporting date	-	1
Balance, End of Year	\$ 13	\$ 13

The Company's pension plan assets were invested in the following as at December 31, 2013: 39 percent Domestic Equity (2012 – 37 percent), 29 percent Foreign Equity (2012 – 26 percent), 26 percent Bonds (2012 – 30 percent), and 6 percent Real Estate and Other (2012 – 7 percent). The expected long-term rate of return is 6.75 percent. The expected rate of return on pension plan assets is based on historical and projected rates of return for each asset class in the plan investment portfolio. The actual return on plan assets was \$40 million (2012 – \$26 million). The asset allocation structure is subject to diversification requirements and constraints, which reduce risk by limiting exposure to individual equity investment, credit rating categories and foreign currency exposure.

20. FAIR VALUE MEASUREMENTS

The fair values of cash and cash equivalents, accounts receivable and accrued revenues, and accounts payable and accrued liabilities approximate their carrying amounts due to the short-term maturity of those instruments except for the amounts associated with share units issued as part of the Split Transaction, as disclosed below. The fair value of cash in reserve approximates its carrying amount due to the nature of the instruments held. Fair value information related to pension plan assets is included in Note 19.

Recurring fair value measurements are performed for risk management assets and liabilities and for share units resulting from the Split Transaction, which are discussed further in Notes 21 and 18, respectively. These items are carried at fair value in the Consolidated Balance Sheet and are classified within the three levels of the fair value hierarchy in the following tables. There have been no transfers between the hierarchy levels during the period.

	Level 1 Quoted Prices in Active Markets	Level 2 Other Observable Inputs	Level 3 Significant Unobservable Inputs	Total Fair Value	Netting ⁽⁴⁾	Carrying Amount
As at December 31, 2013						
Risk Management						
Risk Management Assets						
Current	\$ -	\$ 71	\$ -	\$ 71	\$ (15)	\$ 56
Long-term	-	204	-	204	-	204
Risk Management Liabilities						
Current	-	38	2	40	(15)	25
Long-term	-	-	5	5	-	5
Share Units Resulting from the Split Transaction						
Encana Share Units Held by Cenovus Employees						
Accounts receivable and accrued revenues ⁽¹⁾	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Accounts payable and accrued liabilities ⁽²⁾	-	-	-	-	-	-
Cenovus Share Units Held by Encana Employees						
Accounts payable and accrued liabilities ⁽³⁾	-	-	8	8	-	8
As at December 31, 2012						
Risk Management						
Risk Management Assets						
Current	\$ 2	\$ 505	\$ -	\$ 507	\$ (28)	\$ 479
Long-term	-	112	-	112	(1)	111
Risk Management Liabilities						
Current	-	25	8	33	(28)	5
Long-term	-	7	4	11	(1)	10
Share Units Resulting from the Split Transaction						
Encana Share Units Held by Cenovus Employees						
Accounts receivable and accrued revenues ⁽¹⁾	\$ -	\$ -	\$ 1	\$ 1	\$ -	\$ 1
Accounts payable and accrued liabilities ⁽²⁾	-	-	1	1	-	1
Cenovus Share Units Held by Encana Employees						
Accounts payable and accrued liabilities ⁽³⁾	-	-	36	36	-	36

(1) Receivable from Cenovus.

(2) Payable to Cenovus employees.

(3) Payable to Cenovus.

(4) Netting to offset derivative assets and liabilities where the legal right and intention to offset exists, or where counterparty master netting arrangements contain provisions for net settlement.

The Company's Level 1 and Level 2 risk management assets and liabilities consist of commodity fixed price contracts and basis swaps with terms to 2016. The fair values of these contracts are based on a market approach and are estimated using inputs which are either directly or indirectly observable at the reporting date, such as exchange and other published prices, broker quotes and observable trading activity.

LEVEL 3 FAIR VALUE MEASUREMENTS

As at December 31, 2013, the Company's Level 3 risk management assets and liabilities consist of power purchase contracts with terms to 2017. The fair values of the power purchase contracts are based on the income approach and are modelled internally using observable and unobservable inputs such as forward power prices in less active markets. The unobservable inputs are obtained from third parties whenever possible and reviewed by the Company for reasonableness.

Changes in amounts related to risk management assets and liabilities are recognized in revenues and transportation and processing expense according to their purpose. Changes in amounts related to share units resulting from the Split Transaction are recognized in operating expense, administrative expense and capitalized within property, plant and equipment as described in Note 18.

A summary of changes in Level 3 fair value measurements during 2013 and 2012 is presented below:

	Risk Management		Share Units Resulting from Split Transaction	
	2013	2012	2013	2012
Balance, Beginning of Year	\$ (12)	\$ 18	\$ (36)	\$ (83)
Total gains (losses)	3	(18)	16	4
Purchases, issuances and settlements				
Purchases	-	-	-	-
Settlements	2	(12)	12	43
Transfers in and out of Level 3	-	-	-	-
Balance, End of Year	\$ (7)	\$ (12)	\$ (8)	\$ (36)
Change in unrealized gains (losses) related to assets and liabilities held at end of year	\$ (2)	\$ (21)	\$ 20	\$ (7)

Quantitative information about unobservable inputs used in Level 3 fair value measurements is presented below:

	Valuation Technique	Unobservable Input	2013	2012
Risk Management - Natural Gas Options	Option Model	Price Volatility	-	0.3% - 28.3%
Risk Management - Power	Discounted Cash Flow	Forward prices (\$/Megawatt Hour)	\$49.25 - \$54.47	\$48.25 - \$57.97
Share Units Resulting from the Split Transaction	Option Model	Cenovus share unit volatility	27.75%	30.18%

A five percentage point increase or decrease in natural gas price volatility would cause no decrease or increase (2012 – nil) to net risk management assets. A 10 percent increase or decrease in estimated forward power prices would cause a corresponding \$7 million (2012 – \$6 million) increase or decrease to net risk management assets. A five percentage point increase or decrease in Cenovus share unit estimated volatility would cause no increase or decrease (2012 – \$2 million) to accounts payable and accrued liabilities.

21. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

A) FINANCIAL INSTRUMENTS

Encana's financial assets and liabilities are recognized in cash and cash equivalents, accounts receivable and accrued revenues, cash in reserve, accounts payable and accrued liabilities, risk management assets and liabilities and long-term debt.

B) RISK MANAGEMENT ASSETS AND LIABILITIES

Risk management assets and liabilities arise from the use of derivative financial instruments and are measured at fair value. See Note 20 for a discussion of fair value measurements.

C) RISKS ASSOCIATED WITH FINANCIAL ASSETS AND LIABILITIES

The Company is exposed to financial risks including market risks (such as commodity prices, foreign exchange and interest rates), credit risk and liquidity risk. Future cash flows may fluctuate due to movement in market prices and the exposure to credit and liquidity risks.

COMMODITY PRICE RISK

Commodity price risk arises from the effect that fluctuations in future commodity prices may have on future cash flows. To partially mitigate exposure to commodity price risk, the Company has entered into various derivative financial instruments. The use of these derivative instruments is governed under formal policies and is subject to limits established by the Board. The Company's policy is to not use derivative financial instruments for speculative purposes.

Natural Gas – To partially mitigate natural gas commodity price risk, the Company uses contracts such as NYMEX-based swaps and options. Encana also enters into basis swaps to manage against widening price differentials between various production areas and various sales points.

Crude Oil – To help protect against widening crude oil price differentials between North American and world prices, the Company has entered into fixed price contracts and basis swaps.

Power – The Company has entered into Canadian dollar denominated derivative contracts to manage its electricity consumption costs.

The table below summarizes the sensitivity of the fair value of the Company's risk management positions to fluctuations in commodity prices, with all other variables held constant. The Company has used a 10 percent variability to assess the potential impact of commodity price changes. Fluctuations in commodity prices could have resulted in unrealized gains (losses) impacting pre-tax net earnings as at December 31 as follows:

	2013		2012	
	10% Price Increase	10% Price Decrease	10% Price Increase	10% Price Decrease
Natural gas price	\$ (441)	\$ 441	\$ (446)	\$ 446
Crude oil price	(19)	19	(20)	20
Power price	7	(7)	6	(6)

CREDIT RISK

Credit risk arises from the potential that the Company may incur a loss if a counterparty to a financial instrument fails to meet its obligation in accordance with agreed terms. This credit risk exposure is mitigated through the use of Board-approved credit policies governing the Company's credit portfolio, including credit practices that limit transactions according to counterparties' credit quality. Mitigation strategies may include master netting arrangements, requesting collateral and/or transacting credit derivatives. The Company executes commodity derivative financial instruments under master agreements that have netting provisions that provide for offsetting payables against receivables. As at December 31, 2013, the Company had no significant collateral balances posted or received and there were no credit derivatives in place.

As at December 31, 2013, cash equivalents include high-grade, short-term securities, placed primarily with financial institutions and companies with strong investment grade ratings. Any foreign currency agreements entered into are with major financial institutions in Canada and the U.S. or with counterparties having investment grade credit ratings.

A substantial portion of the Company's accounts receivable are with customers in the oil and gas industry and are subject to normal industry credit risks. As at December 31, 2013, approximately 87 percent (2012 – 88 percent) of Encana's accounts receivable and financial derivative credit exposures were with investment grade counterparties.

As at December 31, 2013, Encana had four counterparties (2012 – two counterparties) whose net settlement position individually accounted for more than 10 percent of the fair value of the outstanding in-the-money net risk management contracts by counterparty. As at December 31, 2013, these counterparties accounted for 24 percent, 14 percent, 14 percent and 13 percent (2012 – 22 percent and 15 percent) of the fair value of the outstanding in-the-money net risk management contracts.

LIQUIDITY RISK

Liquidity risk arises from the potential that the Company will encounter difficulties in meeting a demand to fund its financial liabilities as they come due. The Company manages liquidity risk using cash and debt management programs.

The Company has access to cash equivalents and a range of funding alternatives at competitive rates through committed revolving bank credit facilities and debt capital markets. In June 2013, the Company extended the maturity date of its existing revolving bank credit facilities and reduced the Canadian facility from C\$4.0 billion to C\$3.5 billion. As at December 31, 2013, the Company had available unused committed revolving bank credit facilities totaling \$4.3 billion which include C\$3.5 billion (\$3.3 billion) on a revolving bank credit facility for Encana and \$999 million on a revolving bank credit facility for a U.S. subsidiary. The facilities remain committed through June 2018.

Encana also has unused capacity under a shelf prospectus for up to \$4.0 billion, or the equivalent in foreign currencies, the availability of which is dependent on market conditions, to issue up to \$4.0 billion of debt securities in the U.S. The shelf prospectus expires in June 2014.

The Company believes it has sufficient funding through the use of these facilities to meet foreseeable borrowing requirements.

The Company minimizes its liquidity risk by managing its capital structure. The Company's capital structure consists of shareholders' equity plus long-term debt, including the current portion. The Company's objectives when managing its capital structure are to maintain financial flexibility to preserve Encana's access to capital markets and its ability to meet financial obligations and finance internally generated growth as well as potential acquisitions. To manage the capital structure, the Company may adjust capital spending, adjust dividends paid to shareholders, issue new shares, issue new debt or repay existing debt.

The timing of expected cash outflows relating to financial liabilities is outlined in the table below:

	Less Than 1 Year	1 - 3 Years	4 - 5 Years	6 - 9 Years	Thereafter	Total
Accounts Payable and Accrued Liabilities	\$ 1,895	\$ -	\$ -	\$ -	\$ -	\$ 1,895
Risk Management Liabilities	25	5	-	-	-	30
Long-Term Debt ⁽¹⁾	1,408	758	2,102	2,150	6,633	13,051

(1) Principal and interest.

FOREIGN EXCHANGE RISK

Foreign exchange risk arises from changes in foreign exchange rates that may affect the fair value or future cash flows of the Company's financial assets or liabilities. As Encana operates primarily in North America, fluctuations in the exchange rate between the U.S. and Canadian dollars can have a significant effect on the Company's reported results. Encana's financial results are consolidated in Canadian dollars; however, the Company reports its results in U.S. dollars as most of its revenue is closely tied to the U.S. dollar and to facilitate a more direct comparison to other North American oil and gas companies. As the effects of foreign exchange fluctuations are embedded in the Company's results, the total effect of foreign exchange fluctuations is not separately identifiable.

To mitigate the exposure to the fluctuating U.S./Canadian dollar exchange rate, Encana maintains a mix of both U.S. dollar and Canadian dollar debt and may also enter into foreign exchange derivatives. As at December 31, 2013, Encana had \$5.4 billion in U.S. dollar debt issued from Canada that was subject to foreign exchange exposure (2012 – \$5.9 billion) and \$1.7 billion in debt that was not subject to foreign exchange exposure (2012 – \$1.8 billion). There were no foreign exchange derivatives outstanding as at December 31, 2013.

Encana's foreign exchange (gain) loss primarily includes unrealized foreign exchange gains and losses on the translation of U.S. dollar denominated debt issued from Canada, unrealized foreign exchange gains and losses on the translation of U.S. dollar denominated risk management assets and liabilities held in Canada and foreign exchange gains and losses on U.S. dollar denominated cash and short-term investments held in Canada. A \$0.01 change in the U.S. to Canadian dollar exchange rate would have resulted in a \$48 million change in foreign exchange (gain) loss as at December 31, 2013 (2012 – \$51 million; 2011 – \$48 million).

INTEREST RATE RISK

Interest rate risk arises from changes in market interest rates that may affect the fair value or future cash flows from the Company's financial assets or liabilities. The Company may partially mitigate its exposure to interest rate changes by holding a mix of both fixed and floating rate debt and may also enter into interest rate derivatives to partially mitigate effects of fluctuations in market interest rates. There were no interest rate derivatives outstanding as at December 31, 2013.

As at December 31, 2013, the Company had no floating rate debt. Accordingly, the sensitivity in net earnings for each one percent change in interest rates on floating rate debt was nil (2012 – nil; 2011 – nil).

22. SUPPLEMENTARY INFORMATION

A) NET CHANGE IN NON-CASH WORKING CAPITAL

For the years ended December 31	2013	2012	2011
Operating Activities			
Accounts receivable and accrued revenues	\$ (75)	\$ 82	\$ 10

	\$ (179)	\$ (323)	\$ (15)

B) SUPPLEMENTARY CASH FLOW INFORMATION

For the years ended December 31	2013	2012	2011
Interest Paid	\$ 575	\$ 509	\$ 486
Income Taxes Paid, net of Amounts (Recovered)	\$ (186)	\$ (124)	\$ (88)

23. COMMITMENTS AND CONTINGENCIES

COMMITMENTS

The following table outlines the Company's commitments as at December 31, 2013:

(undiscounted)	Expected Future Payments							Total
	2014	2015	2016	2017	2018	Thereafter		
Transportation and Processing	\$ 967	\$ 985	\$ 896	\$ 896	\$ 848	\$ 4,379	\$ 8,971	
Drilling and Field Services	292	106	71	41	38	35	583	
Operating Leases	47	43	38	31	28	38	225	
Total	\$ 1,306	\$ 1,134	\$ 1,005	\$ 968	\$ 914	\$ 4,452	\$ 9,779	

CONTINGENCIES

Encana is involved in various legal claims and actions arising in the course of the Company's operations. Although the outcome of these claims cannot be predicted with certainty, the Company does not expect these matters to have a material adverse effect on Encana's financial position, cash flows or results of operations. If an unfavourable outcome were to occur, there exists the possibility of a material adverse impact on the Company's consolidated net earnings or loss in the period in which the outcome is determined. Accruals for litigation and claims are recognized if the Company determines that the loss is probable and the amount can be reasonably estimated. The Company believes it has made adequate provision for such legal claims.

24. SUPPLEMENTARY OIL AND GAS INFORMATION (UNAUDITED)

STANDARDIZED MEASURE OF DISCOUNTED FUTURE NET CASH FLOWS AND CHANGES THEREIN

In calculating the standardized measure of discounted future net cash flows, constant price and cost assumptions were applied to Encana's annual future production from proved reserves to determine cash inflows. Future production and development costs assume the continuation of existing economic, operating and regulatory conditions. Future income taxes are calculated by applying statutory income tax rates to future pre-tax cash flows after provision for the tax cost of the oil and natural gas properties based upon existing laws and regulations. The discount was computed by application of a 10 percent discount factor to the future net cash flows. The calculation of the standardized measure of discounted future net cash flows is based upon the discounted future net cash flows prepared by Encana's independent qualified reserves evaluators in relation to the reserves they respectively evaluated, and adjusted to the extent provided by contractual arrangements, such as price risk management activities, in existence at year end and to account for asset retirement obligations and future income taxes.

Encana cautions that the discounted future net cash flows relating to proved oil and gas reserves are an indication of neither the fair market value of Encana's oil and gas properties, nor the future net cash flows expected to be generated from such properties. The discounted future net cash flows do not include the fair market value of exploratory properties and probable or possible oil and gas reserves, nor is consideration given to the effect of anticipated future changes in oil and natural gas prices, development, asset retirement and production costs, and possible changes to tax and royalty regulations. The prescribed discount rate of 10 percent may not appropriately reflect future interest rates. The computation also excludes values attributable to Encana's Market Optimization interests.

NET PROVED RESERVES ^(1, 2)

(12-MONTH AVERAGE TRAILING PRICES; AFTER ROYALTIES)

	Natural Gas (Bcf)			Oil & NGLs (MMbbls)

Notes:

- (1) Definitions:
 - a. "Net" reserves are the remaining reserves of Encana, after deduction of estimated royalties and including royalty interests.
 - b. "Proved" oil and gas reserves are those quantities of oil and gas which by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward, from known reservoirs, and under existing economic conditions, operating methods and government regulations.
 - c. "Developed" oil and gas reserves are reserves of any category that are expected to be recovered through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well.
 - d. "Undeveloped" oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.
- (2) Encana does not file any estimates of total net proved natural gas, oil and NGL reserves with any U.S. federal authority or agency other than the Securities and Exchange Commission.
- (3) In 2012, revisions and improved recovery for natural gas included a reduction of 4,589 Bcf due to significantly lower 12-month average trailing natural gas prices, partially offset by additions of 1,391 Bcf for technical revisions and improved recovery.
- (4) In 2013, revisions and improved recovery for natural gas included a reduction of 2,872 Bcf due to lower proved undeveloped reserves bookings, partially offset by additions of 2,233 Bcf due to significantly higher 12-month average trailing natural gas prices and minor positive revisions.

12-MONTH AVERAGE TRAILING PRICES

The following reference prices were utilized in the determination of reserves and future net revenue:

	Natural Gas		Oil & NGLs	
	Henry Hub (\$/MMBtu)	AECO (C\$/MMBtu)	WTI (\$/bbl)	Edmonton Light Sweet (C\$/bbl)
Reserves Pricing ⁽¹⁾				
2011	4.12	3.76	96.19	96.53
2012	2.76	2.35	94.71	87.42
2013	3.67	3.14	96.94	93.44

(1) All prices were held constant in all future years when estimating net revenues and reserves.

STANDARDIZED MEASURE OF DISCOUNTED FUTURE NET CASH FLOWS RELATING TO PROVED OIL AND GAS RESERVES

Total costs incurred	2,832	3,673	4,992

COSTS NOT SUBJECT TO DEPLETION OR AMORTIZATION

Upstream costs in respect of significant unproved properties are excluded from the country cost centre's depletable base as follows:

As at December 31	2013	2012
Canada	\$ 598	\$ 716
United States	470	579
	\$ 1,068	\$ 1,295

The following is a summary of the costs related to Encana's unproved properties as at December 31, 2013:

	2013	2012	2011	Prior to 2011	Total
Acquisition Costs	\$ 144	\$ 356	\$ 265	\$ 200	\$ 965
Exploration Costs	43	33	15	12	103
	\$ 187	\$ 389	\$ 280	\$ 212	\$ 1,068

Ultimate recoverability of these costs and the timing of inclusion within the applicable country cost centre's depletable base is dependent upon either the finding of proved natural gas and liquids reserves, expiration of leases or recognition of impairments. Acquisition costs primarily include costs incurred to acquire or lease properties. Exploration costs primarily include costs related to geological and geophysical studies and costs of drilling and equipping exploratory wells.

SUPPLEMENTAL INFORMATION

For the period ended December 31, 2013 (U.S. Dollars/U.S. Protocol)

Operating Earnings ⁽²⁾	802	226	150	247	179	997	296	263	198	240

(1) Cash Flow is a non-GAAP measure defined as cash from operating activities excluding net change in other assets and liabilities, net change in non-cash working capital and cash tax on sale of assets.

(2) Operating Earnings is a non-GAAP measure defined as Net Earnings excluding non-recurring or non-cash items that Management believes reduces the comparability of the Company's financial performance between periods. These after-tax items may include, but are not limited to, unrealized hedging gains/losses, impairments, restructuring charges, foreign exchange gains/losses, income taxes related to divestitures and adjustments to normalize the effect of income taxes calculated using the estimated annual effective tax rate.

(3) Net earnings, operating earnings and cash flow per common share are calculated using the weighted average number of Encana common shares outstanding as follows:

	2013					2012				
	Year	Q4	Q3	Q2	Q1	Year	Q4	Q3	Q2	Q1
(millions)										
Weighted Average Common Shares Outstanding										
Basic	737.7	740.4	738.3	736.1	736.2	736.3	736.3	736.3	736.3	736.3
Diluted	737.7	740.4	738.3	736.1	736.2	736.3	736.3	736.3	736.3	736.3

SUPPLEMENTAL FINANCIAL & OPERATING INFORMATION *(unaudited)*

Financial Metrics	2013		2012	
	Year		Year	
Net Debt to Debt Adjusted Cash Flow	1.5x			1.1x
Debt to Debt Adjusted Cash Flow	2.4x			2.0x
Debt to Adjusted EBITDA	2.5x			2.0x
Debt to Adjusted Capitalization	36%			37%

The financial metrics disclosed above are non-GAAP measures monitored by Management as indicators of the Company's overall financial strength. These non-GAAP measures are defined and calculated in the Non-GAAP Measures section of Encana's Management's Discussion and Analysis.
